

Compsystems 8C Auxiliary Air Control Manifold

Brand: Competition Systems

Product Code: 97-603A

Availability: In Stock

Weight: 0.10kg

Dimensions: 10.00cm x 5.00cm x 2.00cm

Price: \$107.25

Short Description

Allows idle bypass control, brake vacuum and manifold pressure to be used with any individual runner intake (ITB) manifold.

Description

CNC machined from 6060 aluminum, this auxiliary manifold is connected by -3 hoses to each runner using pushlock fittings. The manifold has one port for a Marelli WID060 idle motor, two 1/4NPT ports for brake vacuum and MAP sensor and eight 1/8 NPT ports for connection to each runner.
