

Bosch Motorsport HA-P Hall Effect Speed Sensor

Brand: Bosch Motorsport
Product Code: BOSHAP
Availability: In Stock
Weight: 0.10kg
Dimensions: 10.00cm x 5.00cm x 5.00cm

Price: \$189.75

Short Description

Hall effect sensor, mostly used for wheel speeds, especially in Nemesis TCS kits and our SBK electronics package

Technical Details

Application

Application	Speed
Max. frequency	? 10 kHz
Target wheel air gap	0.5 to 1.4 mm
Temperature range	-40 to 150°C
Output type	Active low
Output circuit	Open collector for 1 k?
Max. vibration	1,000 m/s ² at 10Hz to 2 kHz

Mechanical Data

Weight w/o wire	70 grams
Mounting	M6 bolt
Bore diameter	18mm

Installation depth
Tightening torque

33mm
8Nm

Electrical Data

Mating Connector
Pin 1
Pin 2
Pin 3

AMP827578-1
Ground
Signal +ve
Signal -ve
